

The Sennheiser Mobile Connect App – Assistive Listening on Your Smartphone

At home: Download the app

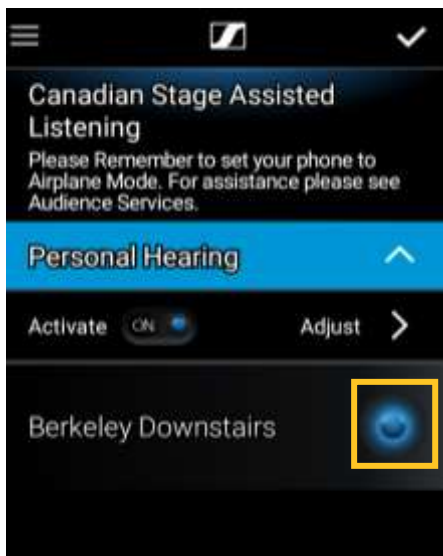

Search “Sennheiser Mobile Connect” in your app store to download.

Bring your own headphones to the theatre, or get a pair of earbuds from the box office

At the theatre: Connect to the Assistive Listening WiFi network at the theatre

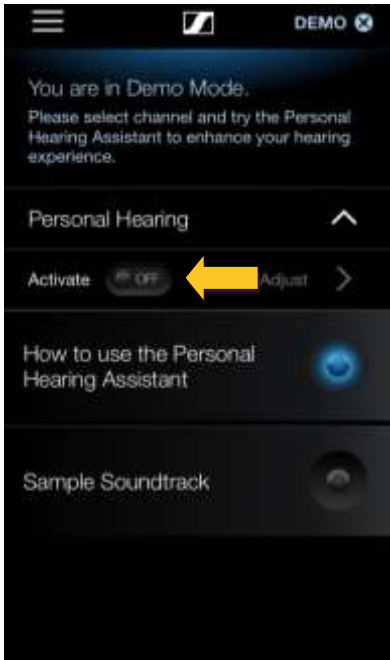

Go to Settings app on your smartphone and choose the Assistive Listening local WiFi network.

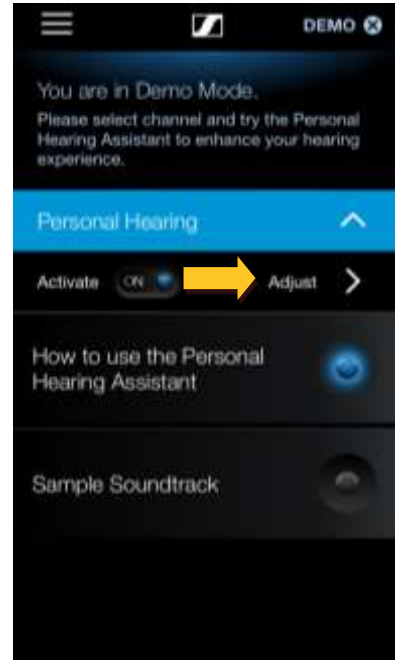

At the theatre: Start the app and adjust sound

After starting the app, select the Berkeley Downstairs channel (the grey circle will turn blue). Use the volume buttons on your phone to adjust volume.

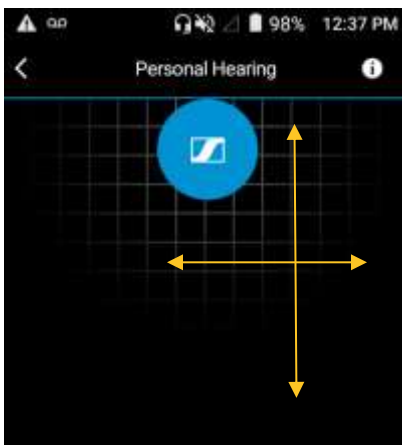

To adjust the sound to your personal preference:

1. Click on Activate - the Personal Hearing Bar will become blue.

2. Click on Adjust to get to the sound adjusting screen.

3. Dragging the circle up increases the volume, down decreases volume; to the left emphasizes bass, to the right emphasizes treble.
